

APPENDIX L - Historic Google Earth Images

Google Earth image dated July 2013 showing the two small pitched roof dormers approved under application 05/00259

05/00259 – Approval for two small dormer windows – floor and roof plans above

Above - April 2015 Google Earth image – Existing flat roof dormers have been installed and boundary treatment has been erected along the boundary with Ranpura creating a private garden. Patio areas installed to the north and west of The Barn. Works all carried out by the applicant / current owner to create a self-contained dwellinghouse.

Existing rear elevation showing two large flat roof dormers installed prior to April 2015 as seen on the above Google Earth images

Above - April 2017 Google Earth image – Cattery buildings now installed. The boundary fence along the eastern boundary with Ranpura is clearly evident as are the patio areas to the north and west of The Barn. A self-contained dwellinghouse has been formed by creating three bedrooms at first floor level via the enlarged dormer windows, as well as a large private rear garden which has been separated from the adjoining property Ranpura.

Above - May 2018 Google Earth image – the private garden is clearly defined and separated from Ranpura A trampoline is evident in the garden demonstrating occupation by a family with children

Above - May 2019 Google Earth image

Above - March 2021 Google Earth image

Above – August 2022 Google Earth image

Above – August 2024 Google Earth image
